

The Look of Brick
The Simplicity of AMS

Parex Advanced Masonry Simulation

Elegant. Efficient. Economical.

PAREX[®]

PRACTICAL TECHNOLOGIES

You Won't Believe It's Not Brick

Parex Advanced Masonry Simulation (AMS) combines the natural look and feel of brick with the construction and performance advantages of an Exterior Finish & Insulation System (EIFS). AMS can be used for all the same applications as EIFS – and more, particularly where weight is an issue. AMS is rapidly growing in popularity for use in residential, commercial, and retrofit construction.

The Cost & Convenience of EIFS

No other cladding compares with the ability of Parex AMS to achieve stunning results easily and economically.

Featuring fully integrated EIFS components, AMS uses factory-made templates and the wide range of Parex Finish colors to achieve an appearance and texture almost indistinguishable from traditional materials.

Advanced Masonry Simulation (AMS)

- Can be used to easily add architectural details.
- Can be applied directly over tilt-ups, precasts as well as one-coat and three coat stucco.
- Comes in a variety of factory-ready or custom designs.
- Simplifies construction with fewer structural requirements than traditional brick and stone.
- Provides a single source of supply and accountability for materials.
- Requires fewer trades than brick or stone, facilitating greater scheduling control.
- Warranty programs available

Proven, Lasting Results

Satisfying designers, builders, installers, and owners with superior results for nearly two decades, Parex AMS is a proven, permanent alternative to masonry.

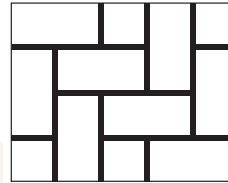

Remarkably versatile, AMS achieves a durable and distinguished appearance along with all the established benefits of EIFS:

- Elimination of dissimilar material combinations
- A single-source warranty for the entire cladding
- Seamless construction that avoids problematic sealant joints
- A higher insulation value with less thermal bridging than brick.

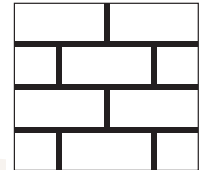

Parex Representative:

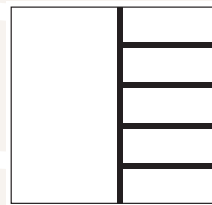

Stock Patterns Available

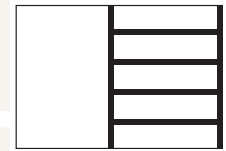

AS5 Herringbone Brick
3-3/4 x 8 x 1/2" mortar joint

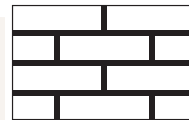

AS10 Running bond brick
3-1/2 x 8-1/4 x 1/2" mortar joint

AS12 8" Border Brick
3-1/4 x 8-1/4 x 1/2" mortar joint

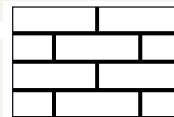

AS13 10" Soldier Course
2-1/4 x 9-1/2 x 1/2" mortar joint

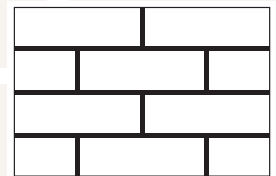

AS14 Wall Brick
2-1/4 x 8-1/4 x 1/2" mortar joint

AS15 Used Wall Brick
2-1/4 x 8-1/4 x 1/2" mortar joint

AS16 New York Wall Brick
2-1/4 x 7-5/8 x 3/8" mortar joint

AS17 Modular Brick
3-5/8 x 11-5/8 x 3/8" mortar joint
